DENIM ON DENIM
Though the look is famously referred to as the "Canadian tuxedo," denim-on-denim outfits are here to stay. One well look at designer runways and stylish it girls on the street style scene and you'll realize, double denim outfits, from classic jean jackets and skirts to mixed washes and even colored denim styles, are at the forefront of casual-cool style.

DRESS UP YOUR DOUBLE DENIM
Don't be afraid to elevate your outfit with luxe-looking items, including statement heels, a leather belt, or a fabulous red lip. When in doubt, just look at the now iconic image of Spears and Timberlake from back in the day to remind yourself just how utterly wrong denim-on-denim can go. That being said, it'll probably be impossible for you to ever go this wrong.
